

Nazeeb Ahamed Malim

Senior Delivery Manager | Portfolio & Program Governance | Enterprise IAM & Cloud Platforms

Strategic and results-oriented Senior Delivery Manager with 16+ years of experience driving enterprise-scale IT delivery, SaaS transformation, and digital programs for Fortune 500 US clients. Proven record of leading cross-functional teams of 50+ across IAM (SailPoint, OKTA), Cloud (AWS), GRC, Risk & Compliance, Infrastructure Automation, and Data Analytics portfolios.

Delivered 12+ global programs, achieving INR 27 million in cost savings and 5,800+ annual hours saved through automation and process optimization. Expert in RBAC architecture, data-flow automation, cloud migration (on-prem to AWS), CAB/ITIL governance, SOX & ISO 27001 compliance, and enterprise program governance.

Recognized with multiple leadership awards, including the Capgemini CEO “Best Innovator” Award, for technology innovation, infrastructure modernization, and delivery excellence.

Skills

-  IT Delivery Management
-  Data Analytics & Governance
-  SaaS Product Delivery
-  Cloud (AWS) Migration
-  Agile / Scrum / SAgile Methodologies
-  Risk & Compliance (SOX, ISO 27001)
-  Identity & Access Management (SailPoint, OKTA)
-  Automation & Integration
-  Enterprise Program Governance
-  CAB / ITIL Change Management
-  Stakeholder & Vendor Management
-  Budgeting & Cost Optimization
-  Power BI / Tableau / SQL (Working Knowledge)
-  Team Leadership & Performance Coaching
-  Risk Mitigation •Team Mentorship

Certifications

-  **Foundations of Project Management**
through Google Project Management COURSERA
Certified Month: Oct 2025 [View Certificate](#)
-  **Engagement Manager**
Global EM Community
Certified Month: Nov 2020
-  **Connected Manager**
through Capgemini Harvard ManageMentor
Certified Month: Nov 2020
-  **Agile Software Development**
University of Minnesota *through* COURSERA
Certified Month: Apr 2020

Education

-  **Bachelors in Information Technology**
Vasavi College of Engineering, Osmania University
Period: Apr 2005 ~ May 2009

Languages

Technologies and Tools

-  SailPoint IAM, Jira, Confluence, AWS, Spring Source, Apache Tomcat, Atlassian, ServiceNow, Test Automation Suite, Power BI, Team Forge, Draw IO, Lucid, Visual Studio, Visio, Eclipse, Remedy, IAM, Peoplesoft, Dynatrace, Jira, Jenkins, SonarQube, Linux, Unix, Windows Servers, Dos, MS Project (MPP), MS SQL Server, MySQL, SSIS, PL SQL, Oracle (SQL *PLUS), Excel, PowerPoint, Word

Professional Experience

- Company:** Bridgesoft Solutions Private Limited, Hyderabad, Telangana

Tenure: Apr 2022 - Present
- Role:** Senior Delivery Manager – IT Delivery & SaaS Programs
- Project 1: alterDomus**
- Period:** Nov 2025 - Present (Assessment & Program Initiation)
- Key Responsibilities:**
- Project Manager for a greenfield IAM remediation and transformation program on SailPoint Identity Now (IDN) in response to audit findings and broken Joiner – Mover - Leaver (JML) processes.
 - Led client discovery and assessment workshops, identifying critical gaps across:
 - JML lifecycle automation
 - Birthright access design
 - Role model (business & IT roles)
 - Access certifications and audit evidence readiness
 - Independently created the IAM Assessment & Recommendation Report, incorporating:
 - Current-state pain points
 - Target-state IAM operating model
 - Audit-aligned remediation strategy
 - Drove internal executive reviews, incorporated leadership feedback, and finalized the assessment deliverable with delivery, architecture, and governance alignment.
 - Designed a 12-month, phase-wise implementation roadmap covering:
 - SailPoint IDN JML rebuild
 - Role engineering & birthright access
 - Certification campaigns
 - Audit remediation and stabilization
 - Presented the assessment findings and execution roadmap to the client stakeholders, securing strong buy-in and progressing the engagement into SOW negotiations.
 - Positioned Bridgesoft as a trusted IAM transformation partner, moving the engagement from advisory assessment to full-scale delivery initiation.

Project 2: Caesars Entertainment

Methodology Used: Agile

Team: 50+ members

Period: June 2025 - Present

Project 3: Bridgesoft - ISO 27001 Certification

Methodology Used: Agile

Team: 9+ members

Period: June 2025 - Present

Accolades

Year	Award	Recognition Summary
🏆 2025	Client Certificate of Recognition - Collaboration	For the production deployment activity of Apr 2025
🏆 2024	Client Certificate of Recognition - Outcome Based	For the migration of on-prem Infra to AWS
🏆 2024	Client Certificate of Recognition – Flexibility	On resolving critical issue
🏆 2024	Client Certificate of Recognition - Team Work Achievement	For successful production deployment
🏆 2024	Client Certificate of Recognition - Team Work Achievement	Appreciation from the Client on team's support throughout
🏆 2023	Client Certificate of Recognition - Team Work Achievement	For swift deployment of the Client initiative to production.
🏆 2023	Client Certificate of Recognition - Team Work Achievement	Efficient, smooth and successful deployment of the version upgrade into production.
🏆 2023	Client Certificate of Recognition - Team Work Achievement	In getting the licenses and emails provisioned for employees
🏆 2023	Client Certificate of Recognition - Team Work Achievement	Exceptional work in delivering multiple Client initiatives successfully.
🏆 2023	Client Certificate of Recognition - Team Work Achievement	Getting the SFTP setup for Client app and making it accessible for all Team Members.
🏆 2021	ConnectingPM - Project Management Certification	On completion of Project Management Assessment by ConnectingPM services
🏆 2018	Quarterly Awards - Outstanding Performance and Lasting Contribution	Recognized for technical leadership in integrating Empulse with Timecard application, enabling shift allowance claim automation and delivering ₹2.5CR in savings.
🏆 2017	Quarterly Awards - Outstanding Contribution in Delivery. Excellence in Customer Delivery	Appreciated for aligning business needs with technical solutions, mentoring team members, and ensuring quality delivery of Empulse, leading to a successful release.
🏆 2016	Mergers - Pat on The Back Award	Integrating legacy IGATE system with Capgemini
🏆 2016	Mergers - Achiever of the Quarter Award	Integrating travel portal, Attendance/Time Management requests reduction by 90% and for vendor management
🏆 2015	Publications - Publication of artifact	Artifact on Upgrading to SQL Server 2014
🏆 2015	Quarterly Awards - Team of the Quarter	Moving IConnect application onto Cloud
🏆 2015	Ideas and Implementation - Business Excellence Award for Sharing Ideas and for implementation	4 Awards: 1.Automations & for Real-Time Dynamic Data Flow Diagrams Generation through Plugins + sharing innovative ideas 2.Solus Swipe Database Archival, 3.CCure Database Access Log Reports 4.CCure Data Synchronization Process Effort Savings (in hrs.): 678 Hard Savings (INR): ₹239,005
🏆 2014	Ideas and Implementation - Business Excellence Award for Sharing Ideas and for implementation	3 Awards: 1.IConnect Database Archival Process 2.Cafeteria Swipe Report process 3.Automating Data flow of legacy systems Effort Savings (in hrs.): 182 Hard Savings (INR): ₹65,260
🏆 2013	Ideas and Implementation - Business Excellence Award for Sharing Ideas and for implementation	2 Awards: 1.Solus daily Attendance process 2.Project BU Complex Data flow Effort Savings (in hrs.): 1410 Hard Savings (INR): ₹513,240
🏆 2012	Ideas and Implementation - Business Excellence Award for Sharing Ideas and for implementation	3 Awards in Sharing Idea & automating: 1.Solus data synchronization 2.Samay daily attendance process 3.Access log report Effort Savings (in hrs.): 1332 Hard Savings (INR): ₹502,190
🏆 2012	Special Award - Best Innovator	Awarded by CEO for internal business process advancement Effort Savings (in hrs.): 240 Hard Savings (INR): ₹90,480
🏆 2012	Quarterly Awards - Team of the Quarter CIO Function	IConnect application auto assignment implementation
🏆 2011	Quarterly Awards - Rewards & Recognition	Execution Excellence and Customer Delight

Additional Responsibilities

- HR & Recruitment Support: Conducted interviews, assessed technical skills, and assisted in hiring team members to ensure project staffing requirements were met efficiently.
- Mentorship & Team Development: Guided developers, QA on best practices, deployment processes, and cross-functional collaboration.
- Employee Training & Knowledge Sharing: Delivered sessions on email management and effective communication to enhance organizational productivity and professional skills.

Project 4: NetJets
Methodology Used: Agile

Team: 7+ members

Period: July 2024 - Dec 2025

Outline: Leading the OKTA and SailPoint RBAC rollout for NetJets, including role-based access control planning, data analysis, organizational mapping, and integration with multiple enterprise applications. The engagement improves access governance, compliance, and documentation standards across Cybersecurity, HR, CREW, IT, and entire NetJets US BU and Divisions RBAC setup completion.

Key Responsibilities:

- Project & Delivery Management: Created project roadmap, coordinated team activities, and ensured adherence to SOW and project plan.
- Data Analysis & Organizational Mapping: Prepared and reviewed RBAC data analysis and complete org structure across divisions, enabling improved departmental planning and Cybersecurity expansion.
- Application Owner Coordination: Validated RBAC groups, captured access details, identified cross-team overlaps, and submitted corrections to the client.
- Certifications & Manager Issue Resolution: Collaborated with certifications team to gather requirements and resolve manager-related access issues.
- SailPoint & OKTA RBAC Rollout: Prepared roadmap and deployment plan, ensured documentation standards, and coordinated HR data collection and follow-ups.
- Team Leadership & Adherence: Guided a cross-functional team of 7+, monitored progress, and ensured compliance with project documentation and governance standards.

Project 5: MGM Resorts International
Methodology Used: Agile

Team: 22+ members

Period: May 2023 - Aug 2024

Outline: Led the Access Certification Campaign Management stream for MGM Resorts as part of the organization's SOX compliance program. Executed quarterly user access review and certification campaigns across all in-scope SOX applications, while overseeing production support operations, ensuring compliance with internal audit and regulatory standards, and streamlining access governance processes.

Key Responsibilities:

- Campaign Delivery Management: Planned, coordinated, and executed quarterly SOX Access Certification Campaigns (Q2 2023 – Q2 2024) across multiple business units and applications.
- End-to-End Oversight: Managed staging, deployment, monitoring, and closure of access certifications, ensuring full audit compliance and timely approvals.
- Production Support Leadership: Directed the production support team for SOX applications, ensuring operational stability, incident resolution, and alignment with certification cycles.
- Performance Achievement: Delivered all campaigns with 100% completion rate (~190 certifications per cycle), validated through audit and final workbooks.
- Stakeholder Coordination: Partnered with Application Owners, Business Managers, and Internal Audit teams to align timelines, track progress, and resolve escalations.
- Data Governance & Process Improvement: Maintained certification dashboards, validated user entitlement data, improved campaign execution timelines, and implemented checklist-based tracking for efficiency.
- Audit Readiness: Delivered finalized reports, and closure documentations.

Project 6: Allegiant
Methodology Used: Agile

Team: 25+ members

Period: Apr 2022 - June 2025

Outline: Led the end-to-end implementation of SailPoint Identity and Access Management (IAM) solution – Pipeline for Allegiant, deployed on the client’s on-premise infrastructure. The engagement centralized identity governance, automated user lifecycle management, and integrated multiple enterprise applications to improve access control, compliance, and operational efficiency.

Key Responsibilities:

- End-to-End IAM Delivery Ownership: Led full-cycle delivery across planning, requirements, build, testing, UAT, and production for Allegiant’s IAM program spanning on-prem infrastructure and AWS cloud.
- Enterprise Integration Leadership: Directed IAM integrations for 12 critical enterprise applications, covering secure connectivity, role mapping, provisioning, entitlement synchronization, and deployment readiness.
- On-Prem to AWS Migration: Successfully migrated SailPoint IAM (Pipeline) from on-prem to AWS within committed timelines; delivery team received formal recognition for on-time execution and stabilization.
- Governance, Release & Deployment Excellence: Enforced Isengard automated deployment standards, executing 12 production deployments (7 full Isengard, 5 expedited CAB/BAU) with zero rollbacks.
- Cross-Functional & Stakeholder Leadership: Partnered with Allegiant’s Business, Security, and IT leadership and Bridgesoft IAM, QA, and DevOps teams to manage risks, dependencies, and delivery commitments.
- Technical & Delivery Oversight: Provided hands-on oversight for build readiness, configuration validation, dependency resolution, and production rollout support to ensure deployment success.
- Process, Audit & Operational Maturity: Strengthened documentation, audit traceability, release governance, change management, and reporting—resulting in a stable, compliant IAM ecosystem and high stakeholder confidence.

Company: Capgemini Technology Services India Limited, Hyderabad,Telangana
Role: Project Manager - IT Transformation & GRC Programs

Tenure: Nov 2009 - Apr 2022

Methodology Used: Agile

Team: 25+ members

Outline: Delivered global GRC, risk control, and data analytics initiatives integrating ENABLON, CyberArk, and BI systems. Managed multi-million-euro transformation programs improving audit, compliance, and operational visibility.

Key Responsibilities:

- GRC Portfolio Management: Directed €2M ENABLON Risk & Compliance platform rollout; improved risk traceability and process efficiency by 32%.
- Audit Automation: Modernized internal audit tool integrating IAM & CyberArk; enhanced audit data reliability by 30%.
- Analytics Enablement: Integrated IBM Cognos and BI dashboards for operational visibility across HR and Finance.
- Digital Workforce Analytics: Delivered Empulse and Sapience tools for productivity analytics, deployed across 30+ locations. Integrated physical and logical security systems including access cards and swipe data.
- Innovation: Automated server-rack mapping system; earned Capgemini CEO “Best Innovator” Award for infrastructure efficiency.
- **Results:** 7+ GRC projects on-time | 35% process automation | Multiple leadership & client excellence awards

Special Project/Mergers:
A proven expertise in unanimously managing end to end data and complex systems integration of top tier company's merger.
